The San Antonio tracked set consists of an inventory of buildings considered to be competitive within the brokerage community. All buildings within the competitive tracked set have been reviewed and verified by members of the Advisory Boards for each market area.

Tracked Inventory (Industrial)	The total square feet of all single and multi-tenant buildings greater than 20,000 sf, excluding owner occupied facilities. Large manufacturing facilities, data centers, airplane hangar space, truck terminals/courts and obsolete/remediation properties are also excluded.
Available SF	All of the available leasable space within a building, whether it is occupied or vacant, for direct lease or sublease space. Space can be available but not vacant, for example, if the landlord, or his agent, is marketing space that will be coming available at a future date because a tenant is planning to move.
Vacant SF	The total of the direct vacant square footage in a building that is being marketed.
Net Absorption	The net change in occupied square feet from quarter to quarter, expressed in square feet.
Note	This report reflects Direct Vacancy and Absorption, Sublease space is excluded.

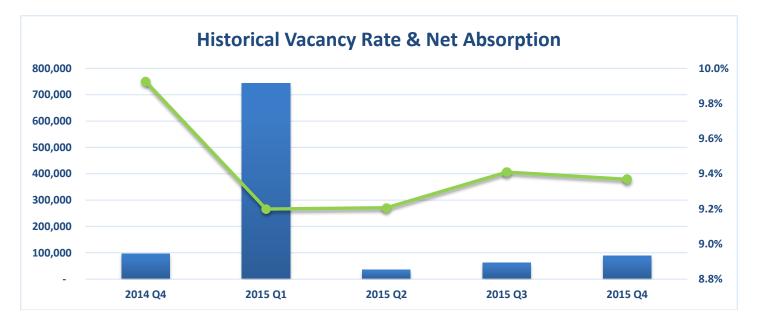

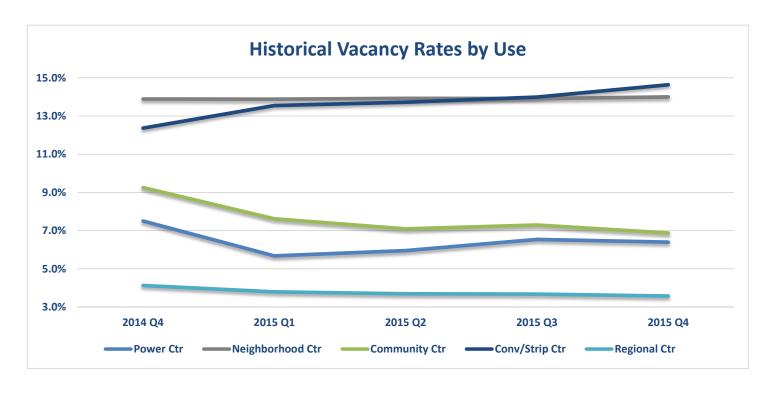

Overview

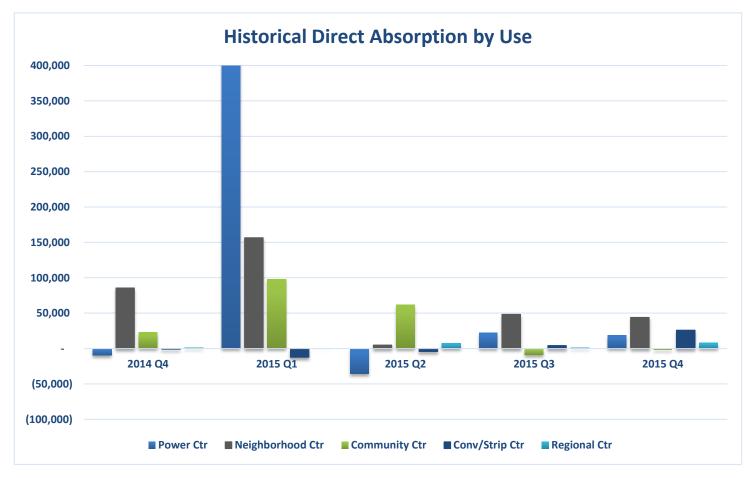

- The San Antonio retail market continues to grow with almost 100,000 square feet of positive absorption in the fourth quarter, closing out the year with over 900,000 square feet in positive absorption.
- The majority of the positive absorption for fourth quarter took place in Neighborhood Centers and Power Centers in the North West and Far North East market sectors.
- The fourth quarter survey of approximately 47.7 million square feet of multi-tenant retail space revealed that the citywide vacancy rate remained steady at 9.3%.
- The citywide average quoted triple net rental rate for all types of retail space increased to \$17.41 per square foot, up from one year ago at \$16.22 per square foot.
